BOOK 1

Easy English For All - Basic Through Advanced

The world's best self-study and reference English grammar book, the book of the future and a "school at home". The Easy English For All - Basic Through Advanced covers the most commonly used parts of the English language, written in a special format developed by the author.

The book is excellent for teachers and for students from 6th grade to and includes college students. It is also good for students in various English programs such as ESL, ELL, ABE, EFL, ELT and GED. (Visit website to read all info).

BOOK 2

Beat 'Em All Casino Winner

A new concept in gambling is presented in this book by Joseph Tsiyoni, author of several professional books, professional auditor and analyst and an inventor. He draws on 20 years of casino experience in developing this new approach and new concept in gambling.

In Mr. Tsiyoni's professional opinion, the book, which is written in a new format, is one of the best gambling books available, if not the best one. It consists of easy to follow instructions, which show experienced or first-time gamblers a new way to make their trip to the casino enjoyable. The new concept is based on playing only some games for pleasure, and playing one specific game to win. The instructions tell when to play, how to play, where to play, and how much money to bet, etc. Tsiyoni's step by step guide to gambling proves there is a better way to win, a better way to play, a better way to have fun. The new format, consisting of 133 numbered sections, makes the referral from one section to another easy. It enables experienced gamblers to skip sections containing information they may already know. (Note: Book has B/W photos/cover)

BOOK 3

AsthmaGone? -- How Asthma Symptoms Disappeared In Six Months

A cure for asthma & bronchitis may have been proven (Using Dr. Koder's natural process).

Nothing is more convincing than testimonies of some of hundreds people who were cured from asthma and bronchitis. That is thanks to a simple cooking process which was developed by the late physician, Dr. Julien J. Koder, M.D. and Dentist. He himself treated hundreds with his 6-months natural grain cooking process, whereby all asthma and bronchitis symptoms disappeared. The process is well described in Joseph Tsiyoni's book "AsthmaGone? How Asthma Symptoms Disappeared In Six Months".

Mr. Tsiyoni claims that this is the only known process which helps people who suffer from Asthma, Bronchitis, Coryza & Irritative Cough. All existing medications can only relieve attacks and pain until the next episode. Nothing totally prevents attacks, hospitalization; nothing is as helpful as Dr. Koder's proven process. Many people have been missing a great opportunity to enjoy a life-time opportunity using this ONE-TIME, EXTREMELY INEXPENSIVE natural process, instead of taking many medications and suffer at high cost.

"AsthmaGone" reveals Dr. J. Koder's natural grain cooking process, which eliminated all asthma and bronchitis symptoms of hundreds of people each in 6 months, using only \$45 worth of a natural grain(now about \$95). The process described in Tsiyoni's book, along with information on omega oils (in the grain) is simple, and easy to use. Note that Omega Oils have been the main element in a massive world-wide research for a cure for asthma.

Author Joseph Tsiyoni says that he had helped many people, and that he can "prove it with medical records and testimonials." He says it is worth it to spend \$65 on a natural grain, rich in omega oils, just to have a life-time chance, as many people did. He added "Considering doctor visits, hospitals and medication costs, can an asthmatic person afford not to try it?"

Following are quotes from letters of extremely satisfied users of the amazing process.

Amenda Stanwood: "I have had great success. was using 2 inhalers 4 times daily. My Dr. was putting me on Advair – I quite by chance fell upon your book. I thank god I was led to your process I thank u for this wonderful process. My Life is much Better-I can Breathe Thank you!"

Clint Collins: "After just two months of eating the natural grain, I had significant reduction...and after another few months, I did not need any medication... I can honestly say: my asthma has gone.

James Matt: "Dear Joseph:how wonderful that Asthma Process worked wonders for my 6-year old son, Michael...my son's asthma in six months seems to be totally gone. ... Now he takes nothing.... THANK YOU VERY MUCH." [visit www.AsthmaGone.com].

ITEM 2. ONLINE GRADUAL PRICE REDUCTION PATENT (INTERNET TRADING INVENTION

For goods and services.

MISSION: CREATING A GIANT INTERNET TRADING COMPANY.

Joseph Tsiyoni's Online Gradual Price Reduction Patent – Goods & Services (AKA Internet Trading)

and

Tsiyoni's Gradual Price Reduction™ Formulas (©Copyright 2011-2013)

(Revolutionizes Internet Trading; Brings New Excitement)

U.S. Patent 8359230

A. BRIEF

Tsiyoni's new patent presents a new method, concept and process for internet trading of goods and services, making the "auction" types, such as eBay, secondary or maybe soon, obsolete. It revolutionizes the current trading methods, bringing a new spirit, excitement and interesting way of internet-online trading. The patent is based on Tsiyoni's Gradual Price Reduction™ Formulas (© Copyright 2011-2014) for goods and services.

Most importantly, the new patent-method will enable many companies, such as Wal-Mart, Kmart, JCPenney, Amazon, Sears and Best Buy **to brilliantly complement the existing price marketing models**.

B. ABSTRACT

A new internet trading method, concept and process enables users to post goods and services for sale and purchasing, whereby the posted price begins at its maximum, and thereafter is gradually reduced to a minimum, pre-selected price, based on pre-programmed methods and programs, according to a pre-selected schedule of price reduction based on frequencies and sequences of amounts of time, money and percentage, respectively.

The new process provides sets of pre-programmed price reduction schedules, unknown to the buyer, which may be prepared by the seller, or selected from a pool of computerized sets, or randomly selected by the system.

Then, at every certain amounts of pre-selected times, the maximum price of such goods or services is reduced by certain amount of money, or percentage, respectively to the maximum price initially posted, up to the minimum price. The gradual reduction during the duration of the sale enables a prospective buyer to `grab` (purchase) the item by placing an offer at any given time, for the posted price at that time, thereby **instantly purchasing the product or service, ending the sale, and starting a new sale.**
